Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
 - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
 - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
 - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT AND ALLOWANCE

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas Spinelli (Reg. No.: 39,533) on September 29, 2003, October 1, 2003, and on October 6, 2003.

The application has been amended as follows:

a. Please cancel the claims 22-26.

b. On page 4 claim 5 line 4 please add including color or geometric characteristics as one image,-- after the word "markers,"

c. On page 8 claim 12 line 6 please add including color or geometric characteristics as one image,-- after the word "markers,"

d. On page 12-13 claim 19 line 7 please add including color or geometric characteristics as one image,-- after the word "markers,"

e. On page 14 claim 27 line 5 please add -- as one image,-- after the words "geometric characteristics."

Art Unit: 2621

f. On page 20 claim 46 line 4 please add -- including color or geometric

characteristics as one image, -- after the word "markers,"

g. On page 20-21 claim 47 line 5 please add -- as one image, -- after the words "geometric characteristics."

Allowable Subject Matter

2. Claims 1-21, 27-29, 31-41 and 43-47 are allowed.
3. Claims 1-21, 27-29, 31-41 and 43-47 have been re-numbered to claims 1-40.
4. The following is an examiner's statement of reasons for allowance: The instant invention defines a three-dimensional position and orientation sensing apparatus, method, and an article of manufacturing comprising an image input means for inputting an image acquired by an image acquisition apparatus and showing at least three/four markers having color or geometric characteristics as one image, three-dimensional positional information of the markers with respect to an object to be measured being known in advance. The claimed invention distinguishes over the prior art to Leis, et al., among other things, by the manner in which an image showing at least three/four markers having color or geometric characteristics as one image. The claimed combination allows for markers to be identified by their color geometric characteristics, and from the position and each marker in an image that shows at least three/four markers, the position and orientation of each marker with respect to image acquisition, apparatus are calculated.

Obtaining a three-dimensional position and orientation of an object is conventional.

However, the prior art (Leis, et al. USPN 5,828,770) of record fails to teach an image showing at

99

3

Art Unit: 2621

least three/four markers having color or geometric characteristics as one image. Leis, et al.'s invention requires two images (i.e., stereo imaging). These elements in combination with all of the other elements of the claims are not taught or fairly suggested in the prior art of record. It is for this reason and in combination with the other elements of the claims that the claims 1-21 and 27-47 are allowable over the prior art to Leis, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shefali D Patel whose telephone number is 703-306-4182. The examiner can normally be reached on M-F 8:30am - 5:00pm.
